

ADApp – An Innovative Logistics Concept

For Digitalization In Health Care

Partners

Coordinator & main user

Web-App & APIs

Processes & scientific support (technical)

UAS: Hardware, Software & Operator

User feedback & scientific support (humane)

Financial Support

GEFÖRDERT VON

- German Ministry for Education and Research
- Supports all areas of sience
- International exchange in education and science
- Pilot program for the support of less developed areas
- People are the center of attention
- Focus on broad based, local alliances
- Regional eco-system for innovation
- Main research area: digital health care
- Focus on nursing and maintaining autonomy in old age

Plan and Potentials

Our Plan:

- Development of a pharmacy-drone-app
- Interaction with the new digital health care systems
- Integration of a UAS
- With participation of users
- Under scientific accompaniment
- A direct and contact-free delivery of medicine to your house

Value Added:

- Contact-free delivery
- Comprehensive supply in rural areas
- Discharge of ground infrastructure
- Faster reaction times
- Patients can remain independent at home
- Opportunity for local pharmacies to compete with big chains
- Long term: more cost efficient than road curier

System Usability Score

SUS	ADHOC1	CORE1	ALL1
Score range: 0-100	mediocre (Ø 54,38 (23.22))	acceptable (Ø 75,42 (16.84))	mediocre (Ø 67.12 (22.54))
SUS	ADHOC2	CORE2	ALL2
Score range: 0-100	excellent (Ø 80.00 (14.43))	excellent (Ø 88,33 (10.10))	acceptable (Ø 79.72 (15.64))

Core Group 1 to Core Group 2

Tester 6: from 85 (excellent) to 97,5 (terrific)

Tester 7: from 77,5 (good) zu 90,0 (terrific)

Tester 9: from 85 (excellent) zu 77,5 (good)

The Labfly

A Delivery Flight Pattern

5

1: The customer verified the readiness to pick up the package

2: The drone climbs to 110m over polulated areas

3: The drone uses waypoints to navigate

4: The drone sinks to 80m over unpopulated areas

5: The drone uses waypoints to navigate

6: The drone climbs to 110m

7: The drone sinks to 10m and drops the package with a parachute

(8): The drone flies the same way back to the pharmacy

A Delivery Flight
